

Strike Out Parkinson Disease

In honor of former Aggie baseball coach Tom Chandler and in recognition of Parkinson Disease Awareness Month, the Aggie baseball team invites fans to help "Strike Out Parkinson Disease" this April.

The Brazos Valley Chapter of the American Parkinson Disease Association will be collecting pledges for every strike out recorded by the Aggie pitching staff during the month of April. The Aggies have averaged 123 strikeouts in April over the last four seasons. Participants fill out and turn in the pledge form below and send it in to the Parkinson Association by April 27, 2007. At the end of the month, each pledge will be tallied based on the total number of strike outs and notices will be sent to those who participated. The person making the largest contribution will throw out the first pitch at an Aggie baseball game. In the event that multiple participants give at the winning level, a drawing will be held to determine who will throw out the first pitch.

Send pledge form to:

APDA Brazos Valley Parkinson Association
